|          |                      |
|----------|----------------------|
| shackle  | select line          |
| shin* ^  | shift- <dir>         |
| queue* ^ | ctrl- shift- <dir>   |
| fly* ^   | ctrl- <dir>          |
| stoosh** | copy                 |
| cut**    | cut                  |
| spark**  | paste                |
| garb**   | double-click + copy  |
| drop**   | double-click + paste |
| duple*   | duplicate line       |
| cancel   | escape               |
| save     | ctrl-s               |

\* takes optional number parameter for repetition

$\wedge$  takes optional direction parameter, one of the direction keys from table (2)

**\*\*** takes optional number parameter, which is used to determine a persistent clipboard slot

| Capitalization |            |
|----------------|------------|
| yell*          | SOME WORDS |
| tie*           | Some Words |
| gerrish* ^     | someWords  |
| sing*          | Some words |
| laws*          | some words |
| Spacing        |            |
| gum   gun*     | somewords  |
| spine*         | some-words |
| snake* ^       | some_words |

\* capitalization and spacing can be combined into a single command; whether combining or not, they must be suffixed by “bow” and then the dictation to format

<sup>^</sup> gerrish defaults to gum; snake to laws

\* available for Javascript, Python, Java, C++

|                   |                        |
|-------------------|------------------------|
| kick              | left-click             |
| kick mid          | middle-click           |
| psychic           | right-click            |
| shift right-click |                        |
| colic             | ctrl-click             |
| curse             | move cursor by pixels  |
| douglas           | move cursor on grid    |
| rainbow           | alternate grid         |
| legion            | smart text selection   |
| left point        | mouse to screen left   |
| center point      | mouse to screen center |
| right point       | mouse to screen right  |

### Template -Based Navigation (8)

|                |                              |
|----------------|------------------------------|
| jump in*       | move cursor inside next ([{< |
| jump out*      | move cursor past next )}]>   |
| jump back*     | move cursor inside prev )}]> |
| fill <target>* | highlight <target> in line   |

\* all of these are asynchronous, and can be canceled with the word “cancel” if the search is taking too long; <target> only uses certain words, some of which are generated by, for example, the loops from table (6)

### Window Management (9)

|          |                 |
|----------|-----------------|
| minimize | minimize window |
| maximize | maximize window |
| remax    | force maximize  |
| dredge*  | alt + tab       |

\* slated for expansion

### Repetition (10)

|                     |                       |
|---------------------|-----------------------|
| again do            | repeat last dictation |
| again <n> times     |                       |
| record from history | macro recorder        |

### Aliasing (11)

|              |                        |
|--------------|------------------------|
| alias <dict> | alias highlighted text |
| chain alias  | alias as CCR           |

### Passwords\* (12)

|                      |                   |
|----------------------|-------------------|
| hash password <dict> | hash dictation    |
| get password <dict>  | use password seed |

\* dictation must be three words

### Other Miscellaneous Functionality (13)

|              |                         |
|--------------|-------------------------|
| tau sink     | end + enter             |
| tau dock     | end + semicolon + enter |
| kraken       | ctrl + space            |
| pita <text>* | fuzzy string matching   |
